## Black Finish Steel Serrated Hex Flange Cap Screw

M10 Size, 30mm Length, 1.5mm Pitch, Fully Threaded

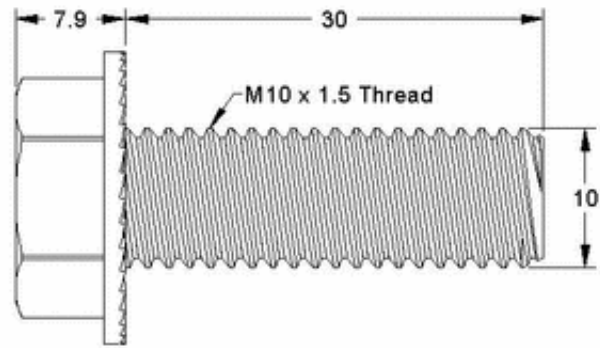

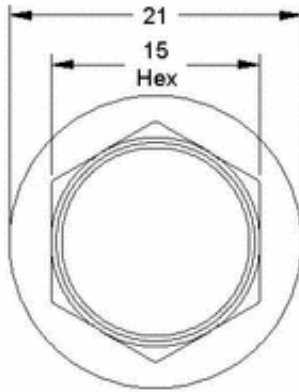

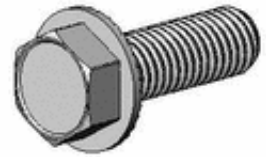

In stock  
\$7.65 per pack of 5  
92820A540

No need for a separate washer, these black finish screws have a serrated flange that bites into surfaces—adding shake resistance and holding power. All screws are fully threaded and have a Class 6g thread fit. Sizes M10 and smaller are made from steel similar to Class 9.8 steel. All are stronger than both Grade 5 and Metric Class 8.8 steel screws.

Minimum Rockwell hardness is C27; minimum tensile strength is 130,500 psi. Head height includes the thickness of the flange. Screw length is measured from under the head.

Length	30 mm
Thread Length	Fully Threaded
Additional Specifications	M10—Pitch: 1.5 mm; Head: Wd. 15 mm; Ht. 7.9 mm; Flange Dia.: 21 mm
