

## Cadmium-Plated Steel S-Style Clip-on Nut

10-32 Thread Size,.02"-.09" Panel,.5" Hole Center to Edge

In stock  
\$2.88 per pack of 1  
98065A155

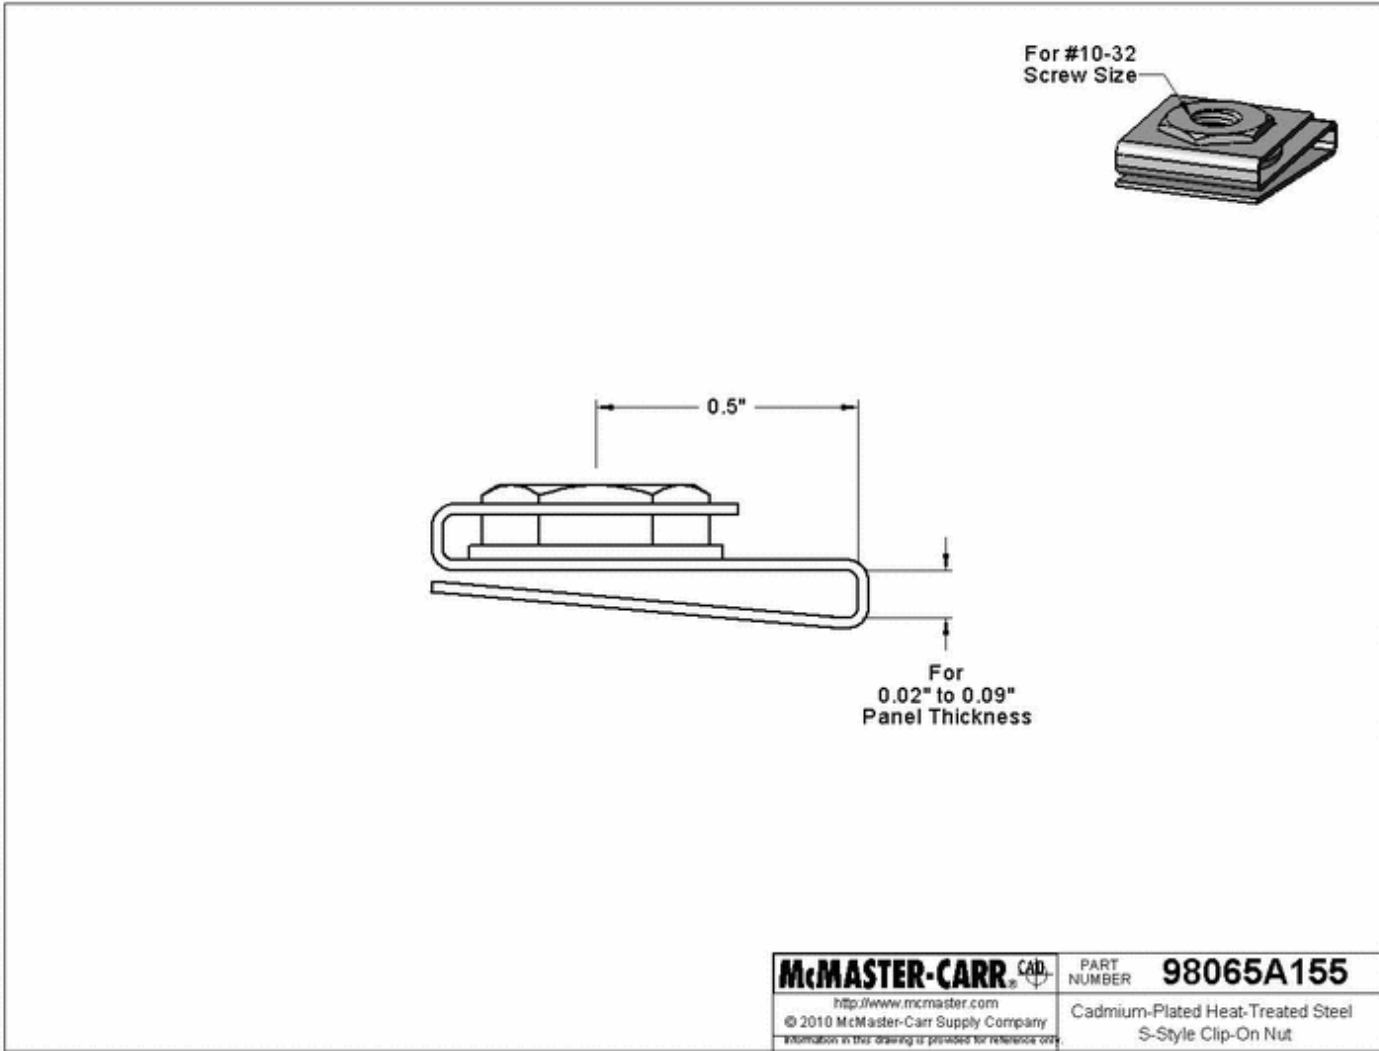

Snap these simple-to-use reusable nuts onto panels for a tight hold during blind assembly.

Styles 3 and 4 offer the security and holding power of a multiple-thread nut so they're great for heavy duty applications. Also known as cage clip-on nuts, they have a minimum Rockwell hardness of C45.

*Style 4* have a heat treated steel clip and a steel nut with a Class 3B thread fit. With an S-style shape, they have more bearing surface than J-style nuts.

Screw Size	10-32
Style	4
For Panel Thickness	0.02"-0.09"
(A)	0.5"
Additional Specifications	For Machine Screws S-Style— Cadmium-Plated Heat-Treated Steel (Unless Noted)
