

18-8 Stainless Steel Flat Head Socket Cap Screw

1/4"-28 Thread, 1-1/2" Long

In stock
\$9.70 per pack of 25
92210A338

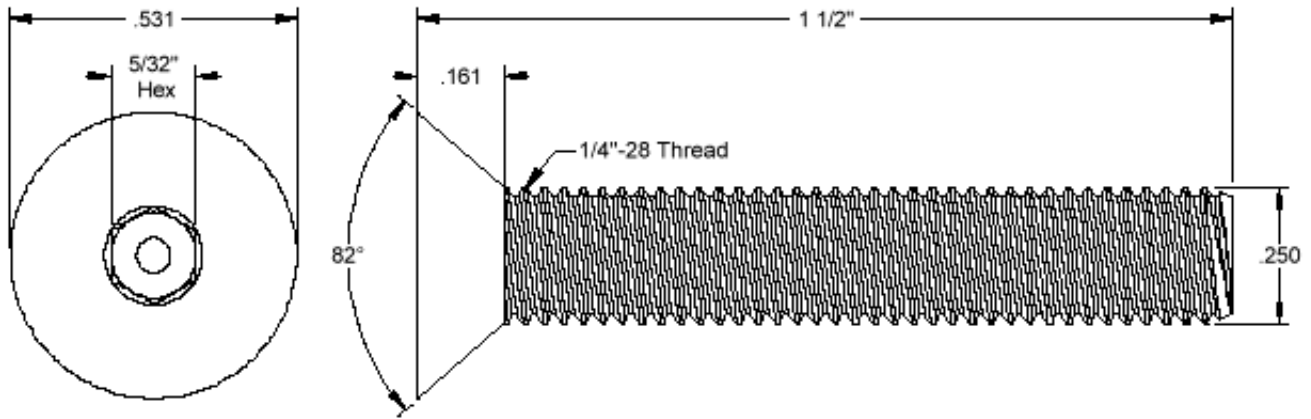

Fully Threaded

Designed for light fastening jobs where you need a flush surface and corrosion resistance. All screws have a Class 3A thread fit, a Rockwell hardness of B70, and minimum tensile strength of 70,000 psi. Screw length is measured from the top of the head. Note: Flat head screws are not recommended for high strength applications.

Type 316 stainless steel provides excellent corrosion resistance—even better than 18-8 stainless steel. It contains molybdenum, which increases corrosion resistance to chlorides and sulfates. May be mildly magnetic.

18-8 stainless steel provides excellent corrosion resistance and may be mildly magnetic. The addition of an attractive black-oxide finish adds a bit of lubricity.

Length	1 1/2"
Additional Specifications	18-8 Stainless Steel
	1/4"-28
	Fully threaded.
